confidence

BELOTERO® VOLUME

Within the Belotero® range, Belotero® Volume is the filler of choice for the restoration of facial volume in:

- cheeks and cheekbones
- chin
- facial volume loss

Can you remember how it feels to show all your happy, funny, lively and strong emotions without worrying about how you look? The Belotero® range is here to make you feel confident and self-assured again about expressing who you are and how you feel.

As we age, the production of natural skin moisturisers (such as hyaluronic acid) slowly diminishes, first leaving fine lines and later reducing facial volume leading to a less youthful appearance. Belotero® Volume is the choice for anyone seeking a harmonious restoration of facial volume.

Thanks to its excellent skin integration, Belotero® Volume follows the natural curve of your upper face and smartly accentuates your cheeks with a **youthful light reflection** that requires no blusher. Look young, fresh and relaxed without any unnatural side effects. There is no need to hold back your emotions any longer – express them with confidence!

What is the Belotero® range?

Belotero® is a premium hyaluronic acid filler range and the right choice for anyone seeking natural-looking results with a long-lasting effect. Belotero® is the filler range with excellent skin integration, and provides subtle, smooth results while respecting the natural contours of your face.

The model is an actual Belotero® patient.
